

## U.S. Army Garrison Hawaii – Environmental Compliance Guide

# PLASTIC #1 & 2 (Recyclable)

## GENERAL INFORMATION

The first plastics made from fossil fuels are just over a century old. They came into wide-spread use after World War II and are found today in everything from cars to medical devices to food packaging. Their useful lifetime varies. Once disposed of, they break down into smaller fragments that linger for centuries.

The largest market for plastics today is for packaging materials. That trash now accounts for nearly half of all plastic waste generated globally; most of it never gets recycled or incinerated.

## WASTE CHARACTERIZATION

Plastic containers are usually marked with a number that indicates the type of plastic. Plastics # 1 & 2 are currently recycled by the USAG Hawaii Recycling Program.

This includes HI-5 plastic bottles as well as non-deposit plastic containers like shampoo and detergent bottles. Refer to the beverage container fact sheet for more information on redeemable beverage containers.

Plastics # 3-5 are not recyclable in Hawaii and # 6 & 7 are not recyclable anywhere. These plastics are considered solid waste and should be disposed of in an appropriate garbage container.

## HANDLING AND DISPOSAL PROCEDURES

**Note: Plastic bags are NOT accepted at the ARC but they are accepted at the Commissary on Post.**

- Drop off your plastic #1 & 2 at the ARC, 1087-B McMahon Rd., Schofield Barracks or request a recycle pick-up by calling (808) 787-0867 or filling out the online pick-up request form: [U.S. Army Garrison \(USAG\) Hawai'i Recycling Pick-Up Request Form](#).
- Note that the Army Recycling Center is not a deposit refund center. HI-5 containers taken to the ARC are considered donation.
- For a deposit refund, containers must be taken to a [HI-5 Redemption Center](#)
