TIRES

GENERAL INFORMATION

Tires are banned from disposal in City and County landfills and the Construction & Demolition (*C&D*) landfill in Waianae. About 290 million tires are disposed of annually in the United States.

WASTE CHARACTERIZATION

Tire material is very durable and does not break down easily. Stockpiling of tires can be a safety and environmental issue. They can become possible breeding grounds for mosquitoes and rodents that carry diseases.

Tires are highly flammable and create fires that are difficult to extinguish, release toxins into the air, and create oil residue on the ground.

HANDLING AND DISPOSAL PROCEDURES

- DO NOT place tires in or around any dumpsters , recycling areas, or roll-off containers.
- For tactical tires, follow LRC's turn-in procedures.
- For POV tires, take to the Schofield Barracks Auto Craft Shop (808) 787-0726. Call for tire disposal fee.
