

DPW-OMD LINE MARKING

Section I	
<p>*FC200-10 from Environmental must be approved prior to submission of the Line Marking form.</p> <p>*This form may take 10-Business days to process and validate.</p> <p>*Line Marking Forms are valid until project is complete as long as utility location markings are maintained by the requestor and excavation is started within 14-days from all utility asset markings. Each requestor performing land excavation must obtain a valid Line Marking Form for excavation within the identified and approved area. If excavation has not begun 14-days after approval, the form is no longer valid and the requestor will be responsible for submitting a new Line Marking request.</p> <p>*Upon receipt of an approved FC200-10 form from DPW Environmental and approved DPW OMD Line Marking Form the requestor may proceed with coordination of land excavation IAW contractual and regulatory excavation requirements.</p>	<p>CONTROL NUMBER/ DMO:</p>

Section II-REQUESTOR RESPONSIBILITIES	
<p>8. REQUESTOR RESPONSIBILITIES AND GENERAL EXCAVATION STATEMENTS</p> <p>I understand that it is my responsibility to review and comply with my contract requirements.</p> <p>I understand that I must coordinate with external utility system owners by contacting them directly or by calling 811 for assistance.</p> <p>I understand this Line Marking Form is required for coordination of land excavation and upon receipt of a validated form, I may proceed with coordination of land excavation IAW contractual and regulatory excavation requirements</p> <p>I propose to dig at the locations within Fort Cavazos cantonment areas depicted in the attached map and understand that G3 or DPTMS-Range Division is responsible for establishing excavation procedures and controlling access in maneuver and live fire training areas on the installation (AR 350-19).</p> <p>I understand that I cannot not dig or excavate without receipt of an approved excavation permit FC200-10 within Fort Cavazos Cantonment Areas.</p> <p>I understand that once the approved dig or excavation permit is received, I must hand dig within three feet (36 in.) on either side of the ground markings indicating the presence of an underground utility.</p> <p>I understand my responsibilities and obligations pursuant to safety, property damage, personal injury, and life-threatening hazards associated with digging in the vicinity of underground utilities (including utilities such as electrical cables and pipes containing natural gas, water, sewer, liquefied fuels, and refrigerants). Severe injuries, death, and extensive property damage may occur as a result of digging through underground utilities.</p> <p>I understand that I am responsible for damages caused to persons or property as a result of my fault or negligence. If the exact location(s) of underground utilities are said to be unknown, I will perform whatever work is necessary to determine exact location(s) and avoid damaging utilities.</p> <p>If archaeological resources (arrowheads, charcoal, bones, etc.) are discovered during excavation, I or my representative will notify DPW Cultural Resources at 287-1092 and suspend all digging activities pending further guidance from DPW-Cultural Resources.</p>	
<p>9. SIGNATURE OF REQUESTOR:</p>	<p>10. DATE:</p>
