

DEPARTMENT OF THE ARMY  
US ARMY INSTALLATION MANAGEMENT COMMAND  
DIRECTORATE OF PUBLIC WORKS  
3040 BUTLER ROAD, BUILDING 22422  
FORT HUACHUCA, AZ 85613

Directorate of Public Works

June 20, 2024

Dear Sir or Madam:

Fort Huachuca is pleased to announce the release of a Draft Programmatic Environmental Assessment (PEA) for New and Continued Military Operations and Activities at Fort Huachuca, Arizona. The Proposed Action includes new and continuing military activities associated with Fort Huachuca. Missions at Fort Huachuca are associated with developing and testing Command, Control, Communications, Computers, Cyber, Intelligence, Surveillance, and Reconnaissance (C5ISR) capabilities; delivering intelligence, unmanned aircraft system (UAS) training, and education; and designing, developing, and integrating intelligence capabilities, concepts, and doctrine. More than 50 organizations exist at Fort Huachuca to support the Fort's ongoing role as a major Army testing and training installation. Fort Huachuca also hosts deployable and non-deployable tenant missions. The primary purpose of the Proposed Action is to establish a long-range vision to sustainably support the ever-evolving command goals, mission objectives, and policies at Fort Huachuca.

There will be a 30-day public comment period from June 23 to July 23, 2024, during which you are invited to submit comments about the Proposed Action and No Action alternative, and potential environmental impacts. The Draft PEA is available online at <https://home.army.mil/huachuca>. A hardcopy of the Draft EA is also available to the general public at the following library: Sierra Vista Public Library, 2600 E. Tacoma Street, Sierra Vista, Arizona 85635.

Comments must be postmarked or received by Tuesday, July 23, 2024 to be considered during the planning process. Comment should be submitted via email to [FHPEA@westoverfederal.com](mailto:FHPEA@westoverfederal.com), or mailed to:

Environmental Manager  
Westover Federal  
10351 S. Riverside St  
Hereford, AZ 85615

Respectfully,

Dawn Rohr  
Chief, Environmental and  
Natural Resources Division
