AMIM-HUG-ZA (420-1ppp1)

20 JULY 2021

**MEMORANDUM FOR RECORD**

**SUBJECT: Rescission of Canyon Closures and Stage 2 Fire Restrictions on Fort Huachuca**

1. The US Forest Service has reopened camping/parks throughout most of Arizona. As such, we are implementing similar measures on Fort Huachuca. Effective immediately, canyon closures and Stage 2 Fire Restrictions on Fort Huachuca have been rescinded, effective 20 July 2021.
2. Patrons must comply with Fort Huachuca Regulation 420-13 to include:
  - a. Open fires are prohibited outdoors except in specifically designed and approved outdoor equipment with proper protective screens.
  - b. Fire pits shall be located at least ten (10) feet away from combustible materials and/or all buildings/homes when in use. Fire pits shall be quenched with water or covered with a noncombustible cover to prevent sparks or hot coals from being scattered by the wind after use.
  - c. Camping and picnic permits must be obtained for Lower Garden Canyon and Lakeside Pavilion from MWR Rents. Fort Huachuca Fire Prevention must sign the permit prior to the event. Fires are permitted only in APPROVED pits and grills (propane or charcoal) and only in Lower Garden Canyon and Lakeside Pavilion locations. Fires will not be left unattended. All fires will be extinguished after each use.
  - d. Persons obtaining a camping or picnic permit are required to notify the Fort Huachuca fire dispatch at 533-5059 when started and extinguishing their fires.
3. Point of Contact for this memorandum is the Fire Prevention Office at (520) 533-1887.
