MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: POLICY 20-51, Installation Bar Letters

1. References:

- a. Title 18, United States Code, Section 1382
- b. Army Regulation (AR) 190-13, The Army Physical Security Program
- c. AR 190-45, Law Enforcement Reporting
- d. AR 600-20, Army Command Policy
- e. CG Memorandum, Delegation of Senior Commander Authorities and Responsibilities to the U.S. Army Garrison Commander, Fort Huachuca, AZ, dated 03 March 2020.

2. Background. Commanders have inherent authority to act in order to avert dangers to morale, welfare, and discipline on an installation. This authority includes authority to enforce the removal of, or denial of access to, persons who threaten order, security, or discipline of the installation. This policy implements the Senior Commander's delegation of authority for the Garrison Commander to establish policy for issuing, revoking or modifying bar letters that deny or limit an individual's access to the installation.

3. Authority. Under the authority of reference 1e, the Garrison Commander has authority to issue a bar letter to any civilian person upon finding credible evidence that the person committed an offense listed on Enclosure 1. The list of offenses is not exclusive and does not limit the Garrison Commander's authority to bar individuals for other reasons. At his discretion, the Garrison Commander may deviate from the recommended exclusion period. Bar letters will NOT be issued to active duty Soldiers. Nothing in the Senior Commander's delegation of authority limits the Senior Commander's right to issue a bar letter in appropriate circumstances.

4. Violation of Bar Letter. Any person in violation of bar letter provisions may be prosecuted in federal court under Title 18, United States Code, Section 1382. This violation carries a maximum of six months in federal prison per violation.

SUBJECT: Policy 20-51, Installation Bar Letters

5. Limited Bar Letters. Limited bar letters may be issued to the individuals listed below. The limited bar letter shall describe the access that is permitted.

a. Family Members of Active Duty Soldiers: Bar letters may permit access to AAFES, Commissary, medical, and dental facilities.

b. Retirees: Bar letters may permit access to AAFES, Commissary, medical and dental facilities.

c. Civilian/Contract Employees: Bar letters may permit access to place of employment while the employment continues. Termination of employment will result in a total bar from the installation unless the subject holds another status requiring a limited bar letter.

d. Multi-Status: If an individual has more than one status, the bar letter may grant access to all facilities to which the individual is entitled, e.g., retirees who are civilian employees receive access to facilities enjoyed by retirees, as well as civilian employees.

6. Minors. Minors may be issued a bar letter.

7. Requests for Bar Letter Reconsideration.

a. Bar letters are effective upon service of the individual except in the case of family members living in on-post quarters.

b. Family members living in on-post quarters will have 10 working days from the service of a bar letter to comply with its terms. In the event the family member requests reconsideration of the bar within the 10 working days from service the bar will not become effective until 10 working days after the family member is served with the decision on the request for reconsideration. Requests for reconsideration after 10 working days will result in the terms of the bar remaining in place while the request is processed.

c. Individuals may request that the Garrison Commander modify or remove a bar letter at any time. Requests for reconsideration should include matters in extenuation or mitigation that support the request to modify or remove the bar. Except for the circumstances detailed in paragraph 7.b, the bar letter will remain effective while the request for reconsideration is processed.

d. All requests for bar letter reconsideration will be routed through the Director of Emergency Services. The Director of Emergency Services will coordinate with the Office of the Staff Judge Advocate for legal review prior to the Garrison Commander's decision.

SUBJECT: Policy 20-51, Installation Bar Letters

8. Bar Process. Any DoD organization on the installation may request the Garrison Commander issue a bar letter to an individual. Requesting agencies will include substantiating documentation for their request. Requests will be forwarded to the Director of Emergency Services. All bar letter requests will be forwarded through the Staff Judge Advocate to the Garrison Commander for approval and signature.

9. Termination of a Bar. Once a bar action has been fulfilled or lifted, the individual is no longer barred from the installation and may access the installation in accordance with Policy 20-54, Fort Huachuca Access.

10. Extraordinary Circumstances. If extraordinary circumstances require temporary access to certain Fort Huachuca facilities by an individual who has received a bar letter or limited bar letter, the individual must contact the Military Police desk at (520) 533-3000 in advance of the visit to those facilities. Prior to visiting those Fort Huachuca facilities, the individual must provide to the Military Police the date, time, and facilities to be visited, and must receive permission for that temporary access. An example of an extraordinary circumstance that may be grounds for this temporary permission is a subpoena requiring court-martial testimony.

11. The proponent for this policy is the U.S. Army Garrison, Directorate of Emergency Services.

12. This memorandum supersedes USAG, Policy 018, Installation Bar Letters.
