Before you drive

Warm up your car for a few minutes Clean the entire car – remove snow & ice from(lights, bumpers, hood, trunk and roof of vehicle. Make sure all lights are operational & test brakes.

Winter Driving

Maintain SPACE

Speed - The No. 1 cause of Winter driving accidents is driving to fast.

Patience and courtesy save lives.

Awareness of other vehicles and your environment is essential.

Concentration - The increased hazards of winter driving make this important.

Exit - Always leave yourself an out.

While you are driving

Follow vehicles at a safe distance

Increase distance if you are driving in snow or snow-packed road.

Gently tap and release brake pedal in a pumping motion

(Non ABS vehicle only)

Vehicles with ABS/disk brakes should apply steady, gentle pressure to the pedal

- **Do not pump ABS brakes.**

Safe Driving Skills

Skids – Steer in direction of skid

As the vehicle comes out of the skid, straighten wheels or steer slightly in the opposite direction as necessary to maintain control of vehicle.

When Stuck

Watch out for other cars!

Shovel the snow from the front & back of all wheels, spread sand, salt or kitty litter

Try to ease out without spinning the wheels

Keep wheels aligned straight until vehicle begins to move ... steer as necessary

Gently rock the vehicle by shifting between forward and reverse.

Fire Safety Starts With You

Avoid kitchen fires

- Start holiday cooking with a clean stove and oven.
- Keep potholders and food wrappers at least three feet away from heat sources while cooking
- When cooking, do not wear clothing with loose sleeves or dangling jewelry. The clothing can catch on fire and the jewelry can catch on pot handles, causing spills and burns
- Make sure all stoves, ovens, and ranges have been turned off when you leave the kitchen
- Keep the kitchen off-limits to young children and adults that are not helping with food preparations to lessen the possibility of kitchen mishaps
- Cook on the back burners when possible and turn pot handles in so they don't extend over the edge of the stove.
- Never leave cooking unattended. If you must leave the kitchen while cooking, turn off the stove or have someone else watch what is being cooked

Avoid Electrical fires

Over 200 fires are report annually due to electrical fires

40% of Christmas fires are causes by faulty lights

1/3rd of fires reported during the Christmas Holidays are caused by candles

Insure to replace old lights with new ones and use them correctly

Do not overload home electrical outlets/circuits

Do not cover heaters and keep heaters safe distance from other objects and keep on floor (flat surface)
