FROZEN ITEMS NORMALLY SOLD CHILLED

Many items sold as chilled items in the U.S. must be frozen for shipment overseas and thawed for sale. If an additional sticker date is labeled on the packaging, this is the new honored sell-by date. Please disregard the original manufacturer sell-by date.

Butterball LLC guarantees wholesomeness on this product for 33 months if the product is maintained at a frozen state (0°F to -10°F)

SPOILAGE

- **Color change alone does not indicate the steak is spoiled, since it is a normal process for beef to change from red to brown. However, if there is color change combined with a funny smell, discard the steak. Steaks that feel slimy or sticky should always be eaten soon after purchased or frozen.**

PCS Preparation: EFMP Screening for OCONUS Accompanied Travel

- A Soldier's EFMP enrollment is considered during the assignment coordination process. **If that assignment is to an overseas location and the Soldier requests accompanied travel, then each family member requires Family Member Travel Screening (FMTS) before travel, even if the Family member is already registered in the EFMP.**
- If Family member is registered** → EFMP screening simply acts as a process to confirm that the special need still exists or provides an opportunity to update the status of the special need if it has changed.
- If Family member is NOT registered** → EFMP screening process may result in the identification of an Exceptional Family Member (EFM) and enrollment in the EFMP.
- NOTE:** FMTS must be initiated within **30** days of official assignment notification.
