

SHAPE International Chapel Men Fellowship Group Changing hearts, Changing minds, Changing oil

What: SHAPE International Chapel oil change outreach project

When: 24 February 2018, 0900-1500

Who: Men of Chapel Community Chapel

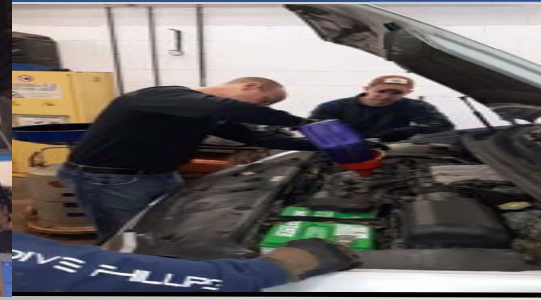

Where: Chievres Auto Skill Center

POC: Chaplain (MAJ) Ronald Boyd

Volunteers: 11

Summary: On Saturday, 24 February 2018, the SHAPE chapel Men's group took time to give back to the community by changing oil for anyone who needed it. Individuals had to provide the oil and the chapel volunteers performed the rest. Changing oil and oil filters and even filling up windshield wiper fluid. By having the opportunity to reach back to the community with a positive focus was the overall mission. Changing oil was the secondary objective, fellowship with everyone that came into the shop was the goal. The conversations and relationships built within those hours were worth all the oil that was changed. We were able to have an optimistic influence on several Army and Air Force personnel, DA civilians, and others. The outreach was a win / win for everyone. Changing hearts, changing minds, and changing oil.

Statistics: 20 cars were serviced by having their oil and oil filter changed, as well as information about chapel services, programs and activities was discussed.

Sharpen the Sword within the community

Provided warming greetings, chapel invite and free oil changes

Committed to serving others
