HIRING OUR HEROES CORPORATE FELLOWSHIP PROGRAM

How Does This Work?

This program is open to eligible active duty service members transitioning out of the military within six months from the start of this program. Additionally, this program is also open to all military spouses of active duty service members. Interested candidates must first apply and be interviewed by participating companies. Upon selection, fellows are placed in mid to senior level professional positions with host companies for 12 weeks Monday through Wednesday. Thursdays will be spent in the classroom, gaining valuable corporate skills and management certifications. After successfully completing the program, you will have the ability to interview for employment with your fellowship company.

Why a Fellowship?

Military leaders and spouses need a transition program that can significantly build their civilian network, and add civilian work experience to their resume. Becoming a fellow in this program notably increases the chances of landing a career that correlates with your education, experience and current level of pay.

What are the Educational Benefits?

U.S. Chamber of Commerce Foundation's partnership with Simplilearn and Oracle

University has provided funding for selected professional certification education tracks and is available to each fellow throughout this program. In addition, weekly fellow huddles and guest speaker/mentor programs will be held.

Am I Eligible?

- Service members must be on active duty or on transition leave for the duration of the 12 week program and be eligible to work shortly following the end of the program.
- Service member applicants must be within 6 months of transition (separation or retirement) from military service.
- All military spouses of active duty service members are eligible to apply (see requirement below).
- Service members & Military Spouses: Must have a bachelor's degree, plus three years leadership experience or equivalent related experience in your field OR an associate's degree, plus five years leadership experience or equivalent related experience in your field.
