

**US Army Garrison - Italy
Department of Public Works
Housing Division**

**USAG ITALY HOUSING OFFICE - UNACCOMPANIED SERVICE
MEMBERS (E7 & UP) AND DAC HOUSING INFORMATION**

Congratulations on your assignment! Living in Italy, and being a part of its culture, is a unique and exciting experience that involves a steep learning curve. The USAG Italy housing office will help you through some of the more challenging areas and guide you every step of the way through the Housing process.

When you are **15 days away from arriving to Italy** please reach back out to our office and provide us with the following information:

1. CMR/PO Box
2. CAC (front and back)
3. Passport and Visa (if Civilian)
4. Date and place of birth
5. Orders
6. Telephone number
7. Personal email address
8. Arrival in Italy

With this information we will apply for your Codice Fiscale, which is like the American SSN and used for tax purposes. You will need this to open a local bank account, activate utilities in private rentals, start a local cell phone account, and potentially a few other instances.

Unaccompanied SMs in the grade of E7 and above, as well as all Department of the Army Civilians (DAC), are not authorized to live in Army Family Housing and must find a Private Rental Home. Our office will schedule you to participate in the Private Rental Briefing so that you can start the process of looking for a home.

Private Rental (PR) – PR housing is in Vicenza and the surrounding townships. This is like when renting a home in the U.S. and the contract is between the resident and property owner. The residents would be responsible for abiding by the lease contract and all utilities. The Housing Office will assist you throughout the process and that will start with a Private Rental Briefing. The Housing Office will also be available to assist you throughout your tenure in USAG Italy, to include facilitate communication with your landlord or a point of contact, maintenance/repair requests, and mediation.

Generally, the housing in the communities of Italy consist of duplexes, townhomes, or apartment flats. In some communities they do have single family homes but this is not common. The average size of a

duplex or townhouse is approximately 1,200 to 1,800 square feet. Most Italian homes have stairs, often two or three stories, which can make it difficult to accommodate large pieces of furniture. The homes on the economy usually do not have kitchen appliances, closets or washers and dryers. The USAG Italy Central Furnishings Management Office (CFMO) will accommodate Service Members with major appliances for the duration of their tour. These appliances are stove/oven, refrigerator, dishwasher, washer, and dryer. CFMO also has the ability to issue loaner furnishings until their Household Goods arrive such as: a dining room table and chairs, living area furniture, bedroom furniture, and wardrobes.

I hope this information is helpful to you and your family.

I wish you the best on your move and if you have any other questions, please don't hesitate to contact our office.
