

Building Circular

Department of Defense/Washington Headquarters Services

Number: XX-XXX Date: October 30, 2019 Expiration Date: Indefinite

SUBJECT: 395 Express Lanes Project Traffic Impacts to South Parking

The purpose of this building circular is to inform all Pentagon building occupants about the Virginia Department of Transportation's (VDOT) 395 Express Lanes Project affecting South Parking.

Beginning November 17, 2019, the new 395 Express Lanes will open from where the 95 Express Lanes leave off around Edsall Road and run up to the 14th Street Bridge in D.C. The new reversible 395 Express Lanes will replace the existing HOV lanes. Tolling will commence except for vehicles with three or more occupants with an E-ZPass® Flex. Please note the following changes to the traffic configuration at Eads Street and S. Rotary Road intersection, as well as the 395 Express Lanes entrance and exit ramps to/from the Pentagon:

- **Eads Street (see Attachment 1):** Beginning November 17, 2019, there will be four new traffic signals on Eads Street near the 395 Express Lanes interchange to control traffic flow.
- **AM Traffic Patterns (see Attachment 2):**
 - To access the Pentagon from the northbound 395 Express Lanes, drivers should stay left to access the Pentagon-only exit ramp on the left. Follow the signal at the end of the exit ramp to turn left onto Eads Street to go to the Pentagon.
 - To access Pentagon City/Crystal City from the northbound 395 Express Lanes, drivers should stay right to access the Pentagon City-only exit ramp on the right. Take a right turn onto Eads Street and proceed to Army Navy Drive.
- **PM Traffic Patterns (see Attachment 3):**
 - From Pentagon South Parking, drivers will either travel eastbound on S. Rotary Road (two right lanes) to access southbound 395 Express Lanes, or travel southbound on Eads Street to access southbound 395 Express Lanes.
 - Drivers coming from Pentagon City/Crystal City can now access southbound 395 Express Lanes via Army Navy Drive and Eads Street and taking a left on the entrance ramp.
- **Parking:** There is no change in parking lot access in Pentagon South Parking.
- **Slug Stations:** Normal slug operations will continue. Vehicles will continue to use the current entrance at Eads Street and N. Rotary Road to enter and exit the Pork Chop.
