

# Join Our Team

**We're seeking a Quality Assurance (QA) Manager to develop, implement, coordinate, and manage the Quality Assurance (QA) Program and Quality Management System (QMS) IAW ISO 9001 at the United States Military Academy West Point.**

The Quality Assurance Manager performs as acting maintenance manager in the absence of the assigned manager; oversees and directs the material maintenance work force for repair/replacement of components and end items during all scheduled and unscheduled activities.

## Qualifications

- Bachelor's Degree in the technical trades or equivalent military training desired. Degree in Formal training in business/personnel management desirable.
- Civilian, Military (desired), or Industrial Engineer training in Quality Assurance/Quality Control IAW MIL-Q-9858, MIL-STD-105E, or ISO 9001 standards is desirable.
- Six Sigma training and practical experience desired.
- A minimum of six to eight years of general experience in professional management, investigative skills, technical skills, financial skills, or other responsible work in providing quality control of services in support of specified logistics, and maintenance missions.
- Five years specialized experience in progressively responsible positions in the DOD encompassing the following: understanding of program planning, data collection and analysis, and quality control techniques.

- Broad knowledge of the organization and procedures of a variety of logistics and maintenance functions to include supply, transportation, fire control, combat vehicles, automotive and electronics equipment.
- Must have specific knowledge of AR 750-8 (The Army Maintenance Management System), Standard Army Maintenance System (SAMS), and Global Combat Support System ARMY (GCSS-ARMY)
- Experience in ISO 9001 is highly desirable.
