

RAGS

Hazardous Waste Management Plan

Possible areas of concern and characterization

Rags contaminated with POL or other materials may be flammable, toxic, or potentially self-combust. Rags contaminated with POL may be considered non-hazardous, however rags contaminated with solvents may exhibit characteristics of a hazardous waste.

HANDLING PROCEDURES

Step 1 POL contaminated rags - Place in a plastic bag and dispose of at the Fort Knox C/DD Landfill. Make sure the rags do not have free-flowing liquids.

Step 2 Used rag containers must have a serviceable lid and always kept closed when not in use.

NOTES

- The term “Rags” should also include paper products (i.e., paper).
- Organizations should make every effort to set up a commercial laundry service (i.e., CINTAS, ARAMARK etc.) for their rags to minimize solid waste generation.
