

# Fort Knox Community Garden

The Fort Knox Community Garden is nearly half an acre of public space dedicated for members of the military community to engage in a community-led, cooperative gardening effort targeting gardening and nutrition education, and battling food insecurity among military families.

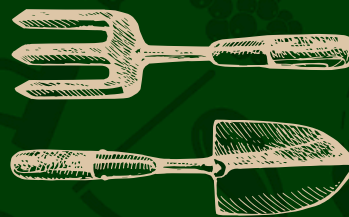

**Get involved and help grow  
fresh produce  
for the Fort Knox  
community!**

*In 2024, we grew and shared 125 lbs of fresh produce with the Fort Knox community!*

*All garden groundskeepers attempt to assist with watering and weeding duties.*

Anyone can participate in the garden's cooperative mission to serve our military families. Including but not limited to active-duty, reserve, veterans, retirees, families (spouses/youth), civilians, businesses invested in the military community, etc.

Sign up to take care of one of the 25 garden beds or help in other ways around the garden, such as mowing, watering, and weeding.

*We harvest fresh produce to share with everyone at the Pineal Trade Station - unless told not to pick from your plot.*

**Email: [garden@knoxhills.com](mailto:garden@knoxhills.com)**

**Apply through VMIS - search for  
"community garden groundskeeper"**
