Environmental Basics

Your Environmental Operating Permit (EOP) will help identify environmental requirements related to your job.

Standard management processes and procedures, when including environmental requirements and considerations, make up the JBLM Environmental Management System (EMS).

Contact your Environmental Advisor for environmental questions related to your operation: 253-967-4786.

Report SPILLS to 911. Report all other environmental issues/concerns to leadership or DPW Environmental Division at 253-966-5337.

Processes that impact the environment

Vehicle and equipment use and maintenance

Hazardous material purchase and use

Fuel transfer/leaking/burning

Excavation/grading/clearing/construction

Water and energy use

Training Area use

Disposal of material waste
