Operations Manager: Chris Roberts

@253-477-0305

wallace.c.roberts2.ctr@mail.mil

Mission Statement

Integrated with the I Corps', 7th ID's, and 593 ESC's G4s, the COMET Team's missions are to assist Brigades' and Battalions' Staffs with reaching / sustaining their core competencies and assisting them with ways to implement a comprehensive evaluation program of their subordinate units. When called upon, the team will assist units with improving their unit readiness, their ability to mobilize and support contingency operations, and properly reconstitute upon redeployment/demobilization. The Team provides formal and informal classes where improvements are needed to meet or exceed the Army's and Joint Base Lewis-McChord's standards in the various commodity areas as part of the Army and FORSCOM's Train the Trainer (TtT) Program.
