FOR IMMEDIATE RELEASE 2026-08-29

Fort Hunter Liggett Fire Safety Advisory

FORT HUNTER LIGGETT, Calif. – The Nacimiento-Ferguson Road remains closed from Highway 1 through Fort Hunter Liggett (FHL). Additionally, all public access roads through the training areas are closed. **Access to these areas is strictly prohibited** for personal safety and because it hinders critical emergency response and firefighting efforts. Official barriers and closures must be respected at all times.

There is no danger to individuals living or working at FHL, and the installation remains secure and fully operational. FHL has suspended the Hunting and Fishing Program as a precaution to the surrounding Plaskett and Timber fires. Field training in affected remote sectors has been suspended/restricted to prioritize fire response.

Smoke from regional fires has degraded local air quality across the valley. Residents, personnel working on or around FHL, and especially individuals with respiratory or breathing ailments are advised to:

* Limit strenuous outdoor activities.
* Stay indoors with windows and doors closed.
* Utilize indoor air filtration systems where available.

The U.S. Forest Service – Los Padres National Forest is serving as the lead agency managing the incident. The public is strongly urged to monitor official channels, heed all published warning notices, and comply immediately with any regional evacuation orders.

FHL continues to keep internal stakeholders informed through the official garrison website, the My Army Post App (MAPA) (available in smartphone app stores), emails, and housing office direct communications.

Fort Hunter Liggett continues to enhance firebreaks and coordinate closely with the U.S. Forest Service, CalFire, and local emergency partners to ensure the protection of personnel, resources, and surrounding communities.

Fort Hunter Liggett provides installation services and sustains facilities to enable Total Force Readiness. It is the seventh largest Army installation and the largest Army Reserve installation in the country. For more information visit our website.
