

FORT MCCOY

SERVING AMERICA'S ARMED FORCES SINCE 1909

2023 Executive Summary

Covering Fiscal Year 2022

Located in the heart of the upper Midwest, Fort McCoy is the only U.S. Army installation in the state of Wisconsin. The 60,000-acre installation is capable of fully supporting training throughout a four-season climate and offers an excellent training environment and support infrastructure for personnel to develop and maintain the skills necessary for mission success.

Fort McCoy exemplifies its motto, "Total Force Training Center," by annually supporting the training of reserve-, -guard, and active-component military personnel from all branches of America's armed forces. Since the 1980s, Fort McCoy has been the training site of choice for thousands of personnel each year.

Fort McCoy provides full-scale support to its customers at each juncture of its training triad — Transient, Institutional and Exercise.

Transient training customers are those who are at the installation for a period of two weeks or less. Transient training is the foundation and building blocks on which individuals and units learn and hone Warrior skills.

Institutional, or schoolhouse, training fulfills the educational requirements and furthers the career status of its students. Fort McCoy currently offers Institutional training opportunities in the leadership, medical, and maintenance fields, and actively seeks additional opportunities to increase this important dimension of its support capabilities.

Exercises culminate military training and test and validate mission readiness. Fort McCoy's extensive training areas and facilities are available to support scalable, multi-component exercises on a year-round basis.

Through strategic business planning initiatives and the efforts of the Fort McCoy workforce, installation leadership is determined to build on the post's record to achieve even greater success in the future. This publication provides information about Fort McCoy and the impact of its operations.

In August 2021, the U.S. Department of Defense directed Fort McCoy to serve as a site for Operation Allies Refuge/Operation Allies Welcome. The installation received approximately 13,000 Afghan evacuees for resettlement in the United States. The economic effects of the first two months of the mission were reflected in the Fiscal Year 2021 numbers. The remainder of the mission is reflected in these Fiscal Year 2022 numbers.

The installation’s mission statement is “Strengthen Total Force Readiness by serving as a Training Center, Mobilization Force Generation Installation, and Strategic Support Area.” As such, Fort McCoy will:

Support training, personnel and equipment readiness of military units across all branches and components of America’s Armed Forces as they prepare for Multi-Domain Operations (MDO), executed through decisive action in a dynamic, challenging, and complex training environment.

Operationalize the Fort McCoy Strategic Support Area (SSA) by serving as the primary provider and integrator of facilities, infrastructure, and the full range of installation Base Operations (BASOPS) to transient training units, installation tenants, and area support customers (off post).

Provide standardized, effective, and efficient services, protection, facilities, infrastructure, and quality of life programs to Soldiers, Families, Civilian employees and Retirees.

Serve as a Mobilization Force Generation Installation (MFGI).

On order, provide Defense Support of Civil Authorities (DSCA).

Accomplish assigned missions in a sustainable fashion exercising effective stewardship of the natural environment and cultural resources.

Throughout the last decade, Fort McCoy experienced unprecedented facility modernization, training-area development and expansion, increased training and customer-support capacity, and improved quality-of-life opportunities.

Fort McCoy provides reserve- and active-component forces with the fully networked and integrated training resources required to support the Army's training strategies.

From unmanned aerial vehicles, to urban training facilities, to live-fire ranges to virtual training environments, Fort McCoy is prepared to meet the training needs of the Army in the 21st century.
