## Hazardous Material/Hazardous Waste Refresher

### **COURSE GOALS:**

Upon completion of this training, you should be able to:

1. Be aware of the Army's Strategy for the Environment and its associated goals.
2. Understand applicable hazardous materials and hazardous waste policies and regulations and how they apply to your work environment.
3. Describe and execute the requirements of the OSHA Hazard Communications standard
4. Identify, mark, label, and segregate different types of hazardous wastes and hazardous materials
5. Understand the requirements and process of hazardous waste characterization. Properly manage hazardous wastes generated by your work activity
6. Understand the requirements of Universal Waste Management and how to properly mark, store and turn in Universal Waste.
7. Respond to spills or releases of hazardous materials and wastes at the First Responder Awareness level.
8. Understand what information gets reported when there is a spill and to whom.
