End State:

Designed for senior warrant officers serving at the battalion echelon or higher, this course explores the senior warrant officers roles within the Aviation branch, to include mission and functions of force design/development, system integration, doctrine, and modernization to meet the Army's requirement through manning, equipping, and training the warfighter. In addition, the aviation warfighter will be updated on aviation functions, processes, LSCO/ULO/MDO, current and emerging TTPs and threats.
