

Advanced Warfighting Skills (AWOAC Revision) provides *Junior Aviation CW2s* with enhanced *knowledge and skill depth* in aviation employment. The PME creates highly specialized, informed, and relevant aviation **advisors, operators, and leaders** capable of advanced tactical maneuver, lethality, and survivability during Large Scale Combat Operations.

**COURSE: AWOAC (2-1-C32)**, known in Army Aviation as “AWS”. The revised title will officially change in ATRRS in 2-3 years.  
 Residence: **4 weeks**. MOS = 150A, 150U, 152-155 Series (excludes 151A)  
 Available to **all Compos**. Student focus: **2-year TiG CW2**  
 \***Objectives:** *Relevance, return to unit (dwell & family time), earlier in career, knowledge depth over broadening...aviator – not staff focused.*

**FOUR PHASES:**

### Key Events

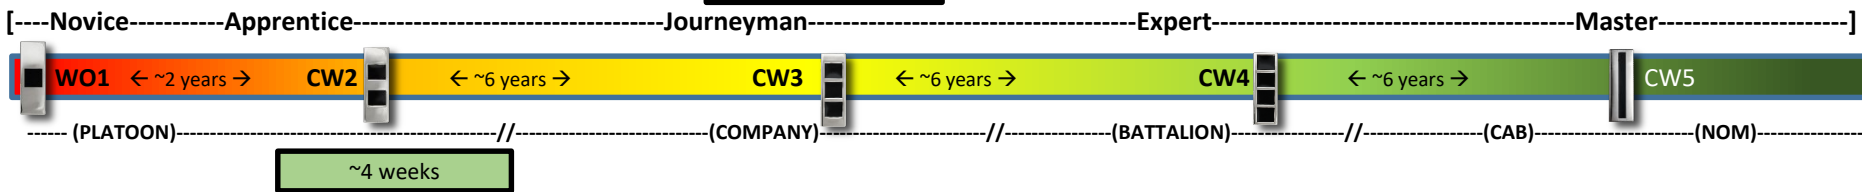

- 1st Pilot Class: 19 JUL 2021 **Completed**
- 2nd Pilot Class: 04 OCT 2021 **Completed**
- 3rd Pilot Class: 09 JAN 2022
- Approved POI FY22/23
- FY22 AWOAC "AWS" IMPLEMENTATION

### Current AWOAC

9 weeks

### End State:

### AWOAC/AWS

Advanced Warfighter Skills will develop junior-grade warrant officers, targeting CW2s who have recently been designated as Pilot-in-Command, and who will be expected to serve as tactical and technical experts in company level positions. **The course goal is to create highly specialized Aviation leaders and trainers who rapidly implement battalion maneuver orders by producing executable, flexible, lethal, survivable plans for Aviation companies and platoons.** The academic instruction is designed to give our junior Warrant Officers a basic orientation to combined arms maneuver at the Division and Brigade level, and in-depth instruction on the roles of Army Aviation within that scheme of maneuver
