TRAIN SMART. SAVE UNIT FUNDS.
IMPROVE UNIT READINESS.

A DTF is a Distributed Learning classroom for Soldiers and civilians to conduct on-line training when it fits their professional needs and personal schedules. DTFs are equipped with Video Tele-Training for instructor led courses and to conduct training at Army installations and Reserve sites world-wide.

ACCESS TO:

- 16 (AC) and 12 (USAR) workstations, internet accessibility and VTT.
- Wide-area & local-area access to collaboration applications.
- Mandatory Annual Training and Military Occupational Specialty Training (Structured Self Development, Pre- and Post-Mobilization Training, Refresher Combat Lifesavers Course, DoD Cyber Awareness Challenge, Anti-Terrorism, Suicide Prevention, Composite Risk Management, Accident Avoidance, Battle Staff, Master Driving Training, Contracting Officer's Representative, TAMIS, EMT Refresher) in the Army Learning Management System.
- Web-based courses in Information Technology, Business, Leadership and Personal Development through Army e-Learning.
- Army Correspondence Course Program courses.
- Virtual Battle Space (VBS) 3.

TO FIND A DTF NEAR YOU:

- www.dls.army.mil/DTF_Contacts

VBS 3:

- Fully interactive, 3D, PC-based operational environment for military training. Units can use the system to develop, rehearse, and refine Unit SOPs and TSPs.
- Supports rapid, real-world terrain development and can be accessed via DTF's and on Deployed Digital Training Campuses.

SIMULATED SCENARIOS:

- Mission rehearsal and/or Action Officer familiarization.
- Convoy training (including integration of virtual reality technology).
- IED defeat.
- Analysis of options (decision support)
- Mission simulation.
- Vehicle checkpoints and area control.
- Cultural awareness training.
- Weapon (or platform) familiarization or experimentation.
