## PLEASE NOTE

- ✓ Road conditions reflect on post circumstances only, however, they can be an indicator of existing road conditions outside the installation.
- ✓ In Baumholder, the garrison commander, in coordination with the garrison manager, determine work delays, early dismissals and closures.
- ✓ In the Kaiserslautern Military Community, Army and Air Force commanders in coordination with DODEA make coordinated school closure decisions. Late reporting and/or closure decisions are made as early as possible.

## SCHOOLS

- ✓ All DODEA schools will take the same action (early closure, late reporting, or cancellation).
- ✓ Early release, late reporting and/or closure decisions are made as early as possible.
- ✓ School buses often have difficulty transiting some areas and low temperature may be dangerous to children waiting at bus stops. Please plan accordingly to allow for adequate time to complete notifications and ensure school bus accommodations are made.

**GREEN:** Ideal road conditions exist.

**AMBER:** Road conditions are normal to dangerous. Drivers should exercise precautions. Most installation operations and services should be open, but changes in weather could lead to late reporting or early release.

**RED:** Road conditions are hazardous. GOV use off installation is limited to emergency and mission essential driving; POV use is discouraged. Late reporting or early release and closure of services is probable for non mission essential personnel.

**BLACK:** Road conditions are hazardous to extremely hazardous. GOV use off installation is at the discretion of the owning commander; POVs should not be on the road. Installation Commander will assess need to close, release or delay.

Road conditions at amber, red and/or black may result in operational delays, early releases and/or closures.
