Stay Mission-Ready!

Renew Your Vehicle Registration Early

- ✓ Save Time
Beat the Summer PCS rush
- ✓ Save Money
Fees will go up soon

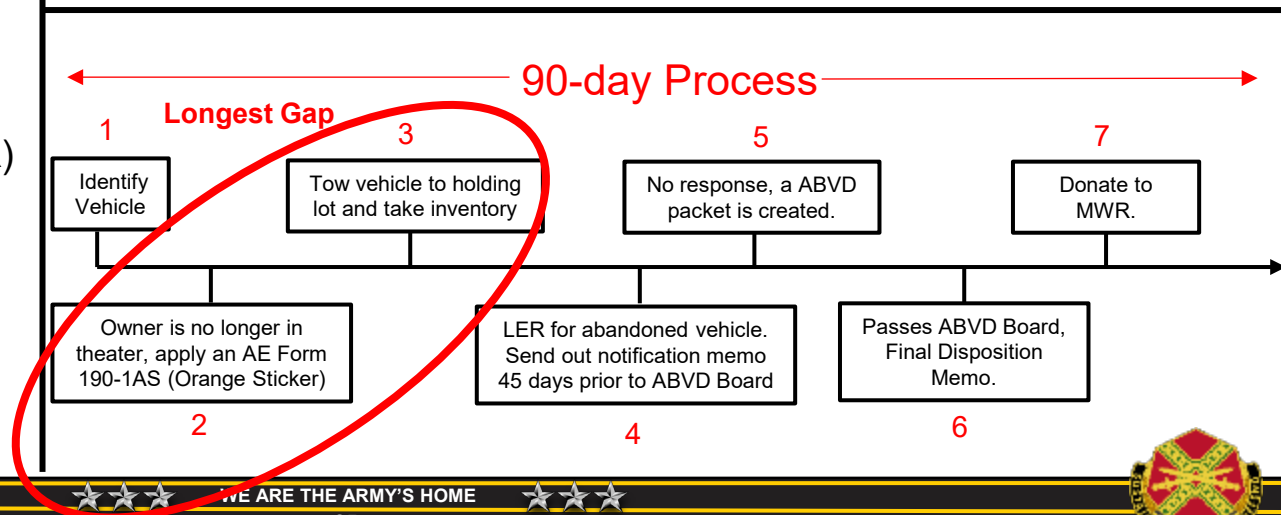

For more information, visit: <https://www.army.mil/article/282741>

Abandoned / Unregistered:

- Total Vehicles: **106**
 - Smith BRK: 83
 - Medical: 10
 - Wetzel: 13
- ❖ Not processed but identified throughout Baumholder

Constraints

- One Tow Truck for USAG Rhineland-Pfalz (BMC & KMC)
 - One Tow Truck Driver
 - DES Traffic Investigators (4) process Abandoned Vehicles
 - Leins on Vehicles
 - Out-processing system doesn't hold owners accountable
 - 90-day process to donate (MWR)
- ❖ When DES personnel are available and Tow Truck is operational, BMC PMO can move 10 vehicles per week.

Non-Operable Vehicle?

Donate it for parts! Baumholder Automotive Skills Center will tow USAREUR-registered cars within a 30 km radius of the Baumholder Military Community.

- ✓ 90-day process
- ✓ No fee with copy of orders
- ✓ \$10 fee without orders
- ✓ Must have a valid USAREUR registration and be present to sign the documents
- ✓ For more information, visit:
baumholder.armymwr.com/programs/automotive-skills-center

Driving / Parking on Post

- Parking is limited in Baumholder
- Parking against the flow of traffic (illegal/safety)
- Parking on Sidewalks (Impedes Pedestrian Traffic)
- Speed enforcement in housing area
- No PT on Prussman Ave
- GPS App is not always RIGHT (100 Kph on Lime St.)

Speed Enforcement Current Operations

Smith Barracks

0730 - 0900

- Lime St. adjacent Smith Elementary
- Menue Road adjacent Softball field

1200 -1400 and 1700 – 1900

- Infantry Avenue adjacent Minick Field

1700 – 1900

Pear St., Fern St., and Ivy St. various locations

Wetzel Kaserne

0730 – 0900 and 1700 - 1900

- Marconi Rd. and Hillside Ave. from ACP to Lower Wetzel Outbound

PT Hours Speeding

- ❖ Ceased Speed Enforcement during PT Hours
- 17 Total signs posted on Smith BRK.
- Infantry Ave, Old Ironsides Ave., Abrams Ave, Cannon Rd, Artillery Ave, and Menue Rd
- ❑ Signage not placed properly, indicating start, end, and intersections
- ❑ Signage not co-located with Kph sign
- ❑ Signage placed sporadically w/ no set plan or policy

Impeding Traffic

- Loading Zones
- Areas Marked with an X
- Dumpster Areas Marked w/ White Lines
- Parking on Sidewalks
- Housing Loading Areas

❖ Picture with 1408 Submitted

Directorate of Emergency Services (DES)

- + New speed cameras coming soon!
- + Ongoing patrols for speed enforcement

Installation Passes

- All non-DoD ID cardholders must escorted by a DoD ID cardholder at all times, be on an approved access roster, or be issued an installation pass.
- All installation passes must be requested on **AE Form 190-16A** by a DoD ID cardholder via encrypted e-mail from an official e-mail account at least three business days prior to the requested date.

1. SHORT TERM (3 DAYS OR LESS)

DoD ID cardholders age 18+ may sign in up to four visitors at a time

MARK A. COLBROOK
DEPUTY GARRISON MANAGER

Purpose: BMC Town Hall and Information Forum serves as a structured quarterly meeting for Garrison, Mission Unit and Service Partners, and our organizations' senior leaders to share short and midterm plans, exchange information, while fostering local networking and cross-communication.

This forum provides a two-way communications opportunity to offer insights on specific concerns and issues, while allowing the USAG Rheinland-Pfalz Command Team to share priorities, updates, and their thoughts on hot-topic items.

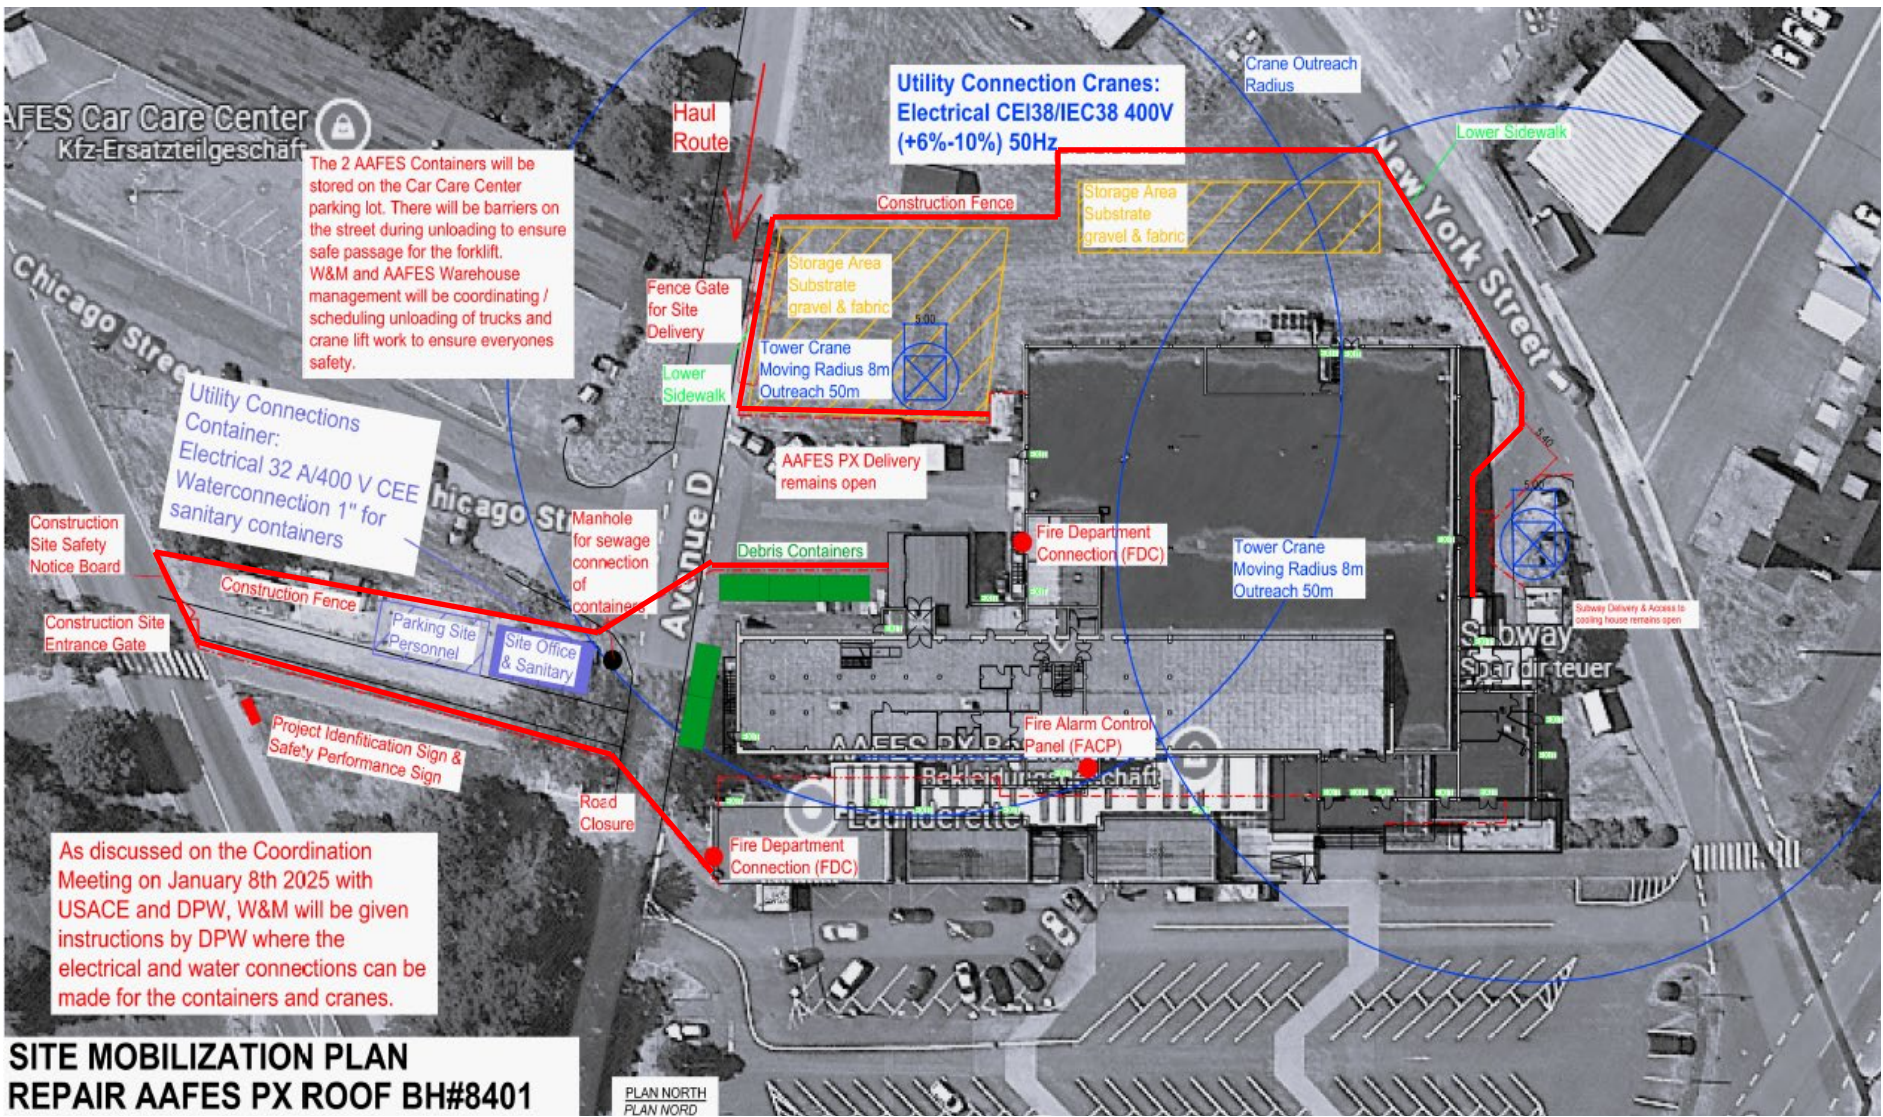

Directorate of Public Works (DPW)

Construction Update

- Balcony Addition Program
 - Project includes 6 buildings: 8009, 8017, 8040, 8047, 8048, 8066
 - Residents will receive a 2-week notification of their install times between the hours of 0800-1600; unit leaders for these buildings will be notified to help coordinate access
 - Wooden dust/privacy wall will be installed inside the living room; it will remain for approximately 4 weeks
 - Estimated start date for dust wall installation: 16 April in Building 8009
- Army Family Housing Rightsizing Projects
 - Buildings 8057 and 8059 – Recently Completed!
 - Buildings 8018 and 8020 – Construction starts **June 2025**
 - Need to vacate building by May 2025
 - Buildings 8019, 8021, and 8023 – Construction starts **September 2025**
 - Need to vacate buildings by August 2025
 - Residents have been briefed; Residents of Bldgs 8018/8020 have priority for moves

TENANT SATISFACTION SURVEY

3 MAR 2025- 1 MAY 2025

**Your feedback can make a BIG DIFFERENCE
in the quality of life for Army families.**

Your Army Wants to Hear from You!

**Completely confidential*

**We are investing significantly in housing
improvements to ensure quality living conditions
are provided to our Soldiers and families.
Survey feedback will guide the Army's efforts to
provide quality, safe and secure housing.**

The completely confidential survey will be emailed from **ArmyHousingSurvey@celassociates.com**.
For additional questions, please contact your local **Army Housing Office**.

Garrison Radon Mitigation Program

WE ARE THE ARMY'S HOME

Agenda

- What is Radon?
- Radon: Germany Compared to USA
- How Radon Enters Building
- Health Effects
- How to Protect Yourself
- Radon Within the BMC
- Radon Monitoring Explained
- Public Awareness
- Radon Outside of Garrison: Information and Testing

What is Radon?

- Radon is naturally occurring gas that is colorless, odorless, and tasteless.
- It is generated by the breakdown of naturally occurring elements in soil, rocks, and sediments.
- Radon is present everywhere in the world; its concentration in air depends on the local geology and atmospheric conditions.

Radon: Germany Compared to USA Radon Concentration in Buildings

Germany

What do the colors mean?

	Zone 1 (red zones)	Highest potential; average indoor radon levels may be greater than 4 pCi/L (picocuries per liter)
	Zone 2 (orange zones)	Moderate potential; average indoor radon levels may be between 2 and 4 pCi/L
	Zone 3 (yellow zones)	Low potential; average indoor radon levels may be less than 2 pCi/L

* According to the US EPA, nearly 1 in 3 homes checked in seven states had radon levels over the [recommended action level](#) for radon exposure of 4 pCi/L.

<https://worldpopulationreview.com/state-rankings/radon-levels-by-state>

How Radon Enters Buildings

- Cracks in solid floors
- Construction joints
- Cracks in walls
- Gaps in suspended floors
- Gaps around service pipes
- Cavities inside walls
- Water supply

Health Effects

Radon Exposure Risks

- Smoking, Radon exposure, and secondhand smoking are leading causes of lung cancer in US
- Radon exposure has a multiplicative effect for smokers
- Risk of developing lung cancer due to lifetime radon exposure is **2 in 1,000 for someone that never smoked**
- Risk of dying from lung cancer due to lifetime radon exposure is **20 in 1,000 for smokers**
- The risks of dying from lung cancer for a nonsmoker is **comparable to risk of dying in a car crash**

How to Protect Yourself

- While it's wise to be aware of radon, the **risk at average levels is relatively low**
- **Simple measures like improving ventilation** can often reduce radon levels significantly
 - ✓ Replacing stagnant air in basement and first floor rooms will prevent accumulation of radon concentration
 - ✓ Opening doors/windows for a few minutes every day to refresh and purge the air

- ✓ For rooms without windows use fans to force some air exchange through the open door (arms rooms, basement closets etc.)

Radon Within the BMC

Legal Background

Radon is no longer regulated in German Final Governing Standards (FGS) nor in Army Regulation 200-1. However, the Garrison has taken the below proactive actions.

	1	2	3	4
Building Priority	AFH, UPH, Schools, CDC's, Medical Facilities	Facilities having 24-hour operations	All other routinely occupied Facilities (Shops/ Offices)	Unoccupied buildings, shed, warehouse, etc.
Notification / Mitigation Threshold Requirement	> 4 pCi/L	8.1 pCi/L	8.1 pCi/L	No sampling req.
Mitigation Timeframe	0 to < 4 pCi/L = No action required 4 to < 8 pCi/L = Mitigate within 5 years 8 to <20 pCi/L = Mitigation within 18 month 20 to 200 pCi/L = Mitigate within 6 months >200 pCi/L = Mitigate within 1 month or move the occupant (PUBLIC WORKS TECHNICAL BULLETIN 200-1-144 30 OCTOBER 2014)	within 18 month (German Radiation Ordinance)	within 18 month (German Radiation Ordinance)	N/A

Radon Monitoring Explained

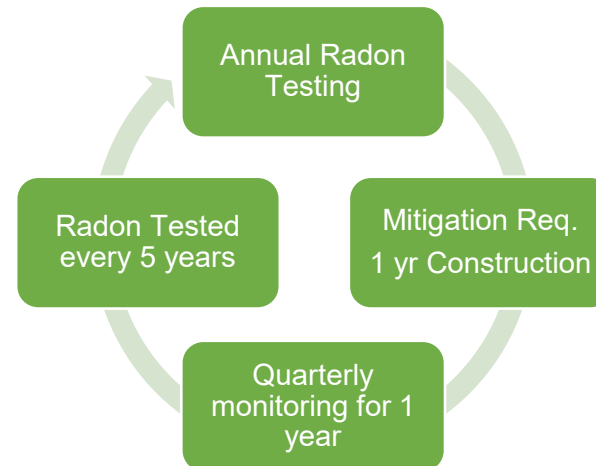

Timeline for Testing

No Mitigation Required (annual testing)

- Considered preliminary sampling (to get updated results)
- Detector placed in the area which are interesting to sample based on the building structure
- Detector remain unaffected for the sampling period of one year
- Detector gets picked up by a contractor and analyzed in an accredited laboratory
- Depends on the result, building will be mitigated or continued sampled after a certain period of time

Mitigation Required

- After a facility is mitigated, One Year monitoring will occur, spitted in four quarterly monitoring events (radon detector exchange every three months by the contractor)
- This setting gives us the flexibility to change settings at the installed mitigation system and react quickly if necessary
- Based on the four quarterly monitoring events yearly average will be provided to DPW to evaluate the results

Mitigation Strategy

Available to Public 24/7
