## How to Request Training Support from the DES Team

Is your formation struggling to balance ATP requirements with a demanding operational schedule? Are you short on instructor pilot man-power to complete APARTs, Readiness Level (RL) Progressions, and other required training? Do you have Unit Trainer/Evaluator (UT/E) candidates but no time to validate them? The Directorate of Evaluation and Standardization (DES) team has Standardization Pilots (SPs), Maintenance Evaluators (MEs), and Standardization Instructors (SIs) that are available to help your unit get ahead on training requirements. Contact us using the QR Code below to request DES support!
