

## PDF File Association

1. Go to "Control Panel" and select "Default Programs."
2. Select "Associate a file type or protocol with a program."
3. Scroll down and select "Choose default apps by file type."
4. Scroll down to the .pdf extension and click on default program adjacent to file extension.
5. Select "Adobe Acrobat," and then exit all windows.
6. Now all .pdf files will open with Adobe Acrobat.
