

For the 13th consecutive season, beginning January 29, 2024, Oracle D&I is proud to sponsor an internship and integration program that exposes transitioning military veterans and active-duty military spouses to the corporate culture, provides hands-on job-skill training and experience, and offers enhanced professional and personal development. The Oracle Veteran Internship Program (OVIP) is specifically designed to aid separating veterans, reservists/guardsmen and active-duty military spouses in exploring possible careers in the private or public sector. At Oracle, we are committed to the development and professional growth of our veterans and military spouses.

US veterans and military spouses accepted into our program will work closely with corporate leadership, military veteran coaches and HR professionals to help prepare for a successful transition. Interns will engage in on-the-job training and professional development in positions listed below (as available):
