***When submitting resumes, please indicate the name of the organization and individual that referred you to the position so that we can follow up with them. ***

Employment Enterprises, Inc. is working with one of the world's largest scientific organizations that is a leader in providing academic and career resources, industry news, and scientific publications. We are searching for a Science Writer to join an enthusiastic team member who loves science and enjoys sharing that passion with others. If you can read scientific papers, are skilled at writing, and value chemistry as a means for improving all people's lives, then we have a place for you on our team of dedicated science communicators. We work in a fast-paced multimedia group, and the Science Writer will research, write, edit, develop, and coordinate a broad range of science-related materials under strict deadlines.

Science Writer Responsibilities:

- Pitch ideas for compelling news stories for our journal content and abstracts of our meeting presentations.
- Be able to review and comprehend peer-reviewed scientific papers.
- Write accurate, high-quality press releases about articles published in more than 80 peer-reviewed journals.
- Write press releases to highlight selected presentations at two large meetings each year and other material as assigned.
- Respond to media requests and requests from the public for information about meeting news and policy statements.
- Work closely with the production team to identify items for multimedia content and support creation of that content.
- Copyedit and fact-check materials to ensure that the content is factually correct and conforms to AP and other style guidelines.
- Creating and adapting content for social media.

Science Writer Qualifications

- Bachelor's degree in chemistry or a closely related scientific field is required.
- The preferred candidate will have experience writing about science for a general audience.
- Must understand scientific content in journal articles and can translate that into language a general audience can understand.
- Highly organized and focused on details.
- Familiarity with AP style is desired.
- Excellent written and oral communication skills are required.
- Great communicator: easily asks questions when needed but at the same time is a skilled problem solver.
- Sense of urgency to complete tasks in a timely fashion

What we offer:

- 401(k) retirement plan

Contact: Colleen Chaplin at cchaplin@eeihr.com

- 
- Medical and dental benefits for qualifying professionals
 - Flex spending account
 - Credit Union Membership
 - Voluntary Supplemental Insurance

“Our Equal Employment Opportunity Policy: Employment Enterprises, Inc. is an equal employment opportunity employer.
