RE: Approval RTC Remedial Investigation/Feasibility Study (RI/FS) HAA-17 TCE Groundwater Contamination, Response to Comments on Revision 3 (Revised October 2019); Hunter Army Airfield, Savannah, Georgia, dated November 04, 2019 and received November 08, 2019.

Dear Mr. Heidle:

The Land Protection Branch of the Georgia Environmental Protection Division (EPD) has reviewed Hunter Army Airfield's Approval RTC Remedial Investigation/Feasibility Study (RI/FS) HAA-17 TCE Groundwater Contamination, Response to Comments on Revision 3 (Revised October 2019); Hunter Army Airfield, Savannah, Georgia, dated November 04, 2019 and received November 08, 2019. Based on that review, it has been determined that EPD's comments provided in the letter dated August 14, 2019 (Hembree to Heidle) has been adequately addressed. Therefore, the above referenced document is hereby approved for implementation. A copy of the document will be placed on file at our office.

Should you have any questions concerning this correspondence, please contact Sharon Priyadarshini or Mo Ghazi at (404) 656-2833.

Sincerely,

Kim Hembree, Manager
Department of Defense Facilities Unit
Hazardous Waste Management Program
