# Georgia Department of Natural Resources

## Environmental Protection Division

### Underground Storage Tank Management Program

4244 International Parkway, Suite 104, Atlanta, Georgia 30354

(404)362-2687

NOTICE DATE: 3/22/06

## GEORGIA UNDERGROUND STORAGE TANK (GUST) CLOSURE ACTIVITY FORM

For underground storage tanks (USTs), which will be permanently closed by removal or in-place, this form should be completed and submitted to the address above at least 30 days prior to the proposed closure. USTs should be closed within ninety (90) days after the proposed closure date as reported to EPD.

### I. FACILITY INFORMATION:

Facility Name: HUNTER ARMY AIRFIELD - BULK FUEL FARM  
Contact Person: DALE KIEFER - DPW Telephone: (912) 767-4629  
Address (location; P.O. Box not acceptable): BULK FUEL FARM - HAAF  
City: SAVANNAH, GA County: CHATHAM Zip Code: 31409  
Facility ID: 9-025113\*1

### II. UST INFORMATION: ("Contents" refer to last product contained in UST system)

Tank ID	Tank Size (gallons)	Contents	Type of Closure (check one)			Date Last Used
			Removal	In-Place	Piping	
<u>117</u>	<u>550</u>	<u>GROUT</u>	<u>X</u>			<u>1/1996</u>
						<u>/ /</u>
						<u>/ /</u>
						<u>/ /</u>
						<u>/ /</u>

### III. UST OWNER: (Complete this section even if it is the same as Section I)

UST Owner Name: FORT STEWART - DIRECTORATE OF PUBLIC WORKS  
Mailing Address: 1550 FRANK COCHRAN DR. BLDG. 1129 City: FORT STEWART State: GA Zip Code: 31314

### IV. CONTRACTOR: (Company secured to actually close UST system)

Company or Organization Name: CAPE, INC.  
Contractor Representative Name: MICHAEL HEALY Telephone: (815) 422-7351  
Address: 91 NOLL STREET City: WARRICK, IN State: IL Zip Code: 60085

### V. CLOSURE NOTIFICATION INFORMATION:

As UST owner, I certify that the information concerning permanent closure of the UST system referenced on this form is true to the best of my belief and knowledge, and that the requirements of Subpart G of Title 40 CFR Part 280 and the Georgia Environmental Protection Division Closure Guidance (GUST-9, as revised) will be met. (Not valid without owner signature.)

Name (Print): THOMAS C. FRY Title: Chief, Environmental Division  
Organization Name: US Army / Fort Stewart Telephone: (912) 767-2060  
UST Owner Signature: [Signature] Date: 4 Apr 06

**Facility ID #: 9-025113#1 USTMP CLOSURE REPORT FORM**

Complete this form and provide documentation to substantiate information as outlined in the Underground Storage Tank (UST) Closure Guidance Document (GUST-9). Use a separate form for each tank excavation.

**I. GENERAL**

A. UST OWNER Company Name (if applicable): Fort Stewart - Directorate of Public Works  
Mailing Address: 1550 Frank Cochran Drive City: Fort Stewart State: GA Zip: 31314

Owner's Name (printed): U.S. Army / Hunter Army Airfield Phone: 912-767-2010  
I hereby certify that the information in this Closure Report and in all the attachments is true, accurate, and complete, and the Closure Report satisfies all criteria and requirements of Rule 391-3-15-.09 of the Georgia Rules for Underground Storage Tank Management.

Signature (of owner listed under "Name" above): \_\_\_\_\_ Date: \_\_\_\_\_

**B. REMOVAL CONTRACTOR (Prime Contractor/Prime consultant)**

Company: CAPE INC.

Mailing Address: 91 Noll Street City: Waukegan State: IL Zip: 60085

Name of Company Representative (printed): STEVE SCAVONE Phone: 865-765-3653

I hereby certify that I have performed or supervised the work detailed in this report, and have examined and am familiar with the information submitted in this and all attached documents. The submitted information is, to the best of knowledge, true, accurate, complete, and in accordance with the Georgia Rules for Underground Storage Tank Management, revised February, 1995.

Signature (of same contractor listed under "Name"): [Signature] CAPE Date: 8/1/06

HAAF

C. UST Site Facility Name: Bulk Fuel Farm County: CHATHAM Fac. I.D.#: 9-025113#1

Street HAAF

Address: Bulk Fuel Farm City: SAVANNAH State: GA Zip: 31409

**II. TANKS AND PIPING CLOSURE DATA****A. LIST USTs THAT HAVE BEEN CLOSED (Use the same tank ID # as on the 7530-1):**

TANK ID#	117				
Product	JP-4				
Size (gals)	550				
How Closed	X Removed	Removed	Removed	Removed	Removed
(check one)	In Place	In Place	In Place	In Place	In Place
Date Last Used	1996				
Date Closed	5/06				
(Date removed from ground or filled in-place)					

**LIST ANY USTs STILL IN USE AT THE FACILITY (Use same tank ID # as on 7530-1):**

TANK ID#					
Product					
Size (gals)					

B. PIPING: How was Piping closed? ☒ Removed. ☐ Emptied, capped, left in place.  
☐ Emptied, filled with inert material.

If only piping was closed, give date: \_\_\_\_\_ (month, day, year)

PIPING WAS PREVIOUSLY REMOVED. NOT PRESENT AT TIME OF REMOVAL.

### III. SAMPLING AND ANALYTICAL

**A. Soil/Groundwater Sampling:** The quantity of samples taken should be in accordance with USTMP closure guideline (GUST-9) requirements and all samples must be collected in accordance with current EPA-approved sampling procedures.

**B. Regulated Substance Released:** Whenever free product is encountered and/or analytical results indicate that BTEX, PAH, or TPH contamination is present in the soil and/or groundwater, a release must be reported to EPD via telephone or fax by the next business day explaining what has been found and what steps were taken to eliminate any hazardous conditions and prevent the spread of contamination. Indicate here what substance, if any, was released:

☒ None ☐ Gasoline ☐ Diesel ☐ Kerosene ☐ Used Oil ☐ Other (Name):

Date release reported to EPD: No Release or evidence of release from UST.

**C. Laboratory Analytical Methods Used (check all that were used):**

5035-8021B ☐ 5035-8015 ☒ 5035-8260 ☒ 8100 ☐ 8310 ☐ 8270 ☐  
Other \_\_\_\_\_

If Method 5035 was used to sample, which method was used to collect and contain the samples?  
Encore™ \_\_\_\_\_ Syringe/corer and field-preserved in 40 ml vial ☒

TERRACORE Samplers

### IV. TANK EXCAVATION SAMPLES (see #5 for piping trench samples)

<u>in gallons) of UST</u>	<u># of samples required per UST</u>	<u>Size (capacity</u>
<1,050	1	
1,050 - 12,500	2	
> of equal to 12,501	2 per UST + 1 per additional 10,000 gals	
		(Collect 1 sample per UST if a groundwater sample was collected within 2 feet of the excavation.)

**A.** Based on the total number of USTs closed as reported on this form, the total number of tank excavation samples taken for this site was: 1

**B.** If over-excavation is performed, take one confirmation sample every 30 linear feet along the base of the sides (within 1 ft of the bottom of the excavation) and one sample per 200 sq ft along the bottom of the excavated area.

- 1) Was over-excavation performed? Yes ☐ No ☒
- 2) If "yes", what was the area of the excavation in square feet?
- 3) Enter total number of over-excavation samples for this site here:

- C. Site-Specific Hydrogeology:** 1.) Was Groundwater encountered? Yes ☒ No ☒  
2.) If encountered, at what depth: \_\_\_\_\_ feet  
3.) If Table B Threshold Levels are being used, how far is the nearest drinking water well or point of withdrawal for drinking water? \_\_\_\_\_ ft.

**D. Groundwater conditions:** If more than one foot of groundwater covers more than 50% of the base of the excavation, a groundwater sample may be taken in lieu of soil samples from the base of the excavation. One soil sample per UST must still be collected at the fill-pipe end of each UST along the sidewalls at the soil-water interface.

Enter total number of soil-water interface samples for this site here: 0

## **V. PIPING SYSTEM EXCAVATION SAMPLES**

### **A. PIPING TRENCH**

*No Piping present at time of Removal.*

Distance from UST to nearest dispenser island: Less Than 25 ft\* 25 feet or more  
# of samples required for each trench: 0\* 1 sample per 25 feet\*\*

What was the distance from the USTs along each piping trench to the nearest dispenser island?  
X (feet) [ \_\_\_\_\_ (feet) \_\_\_\_\_ (feet) (if more than one trench)]

How many confirmation samples were collected from each piping trench?  
\_\_\_\_\_ (piping trench 1) [ \_\_\_\_\_ (piping trench 2) \_\_\_\_\_ (piping trench 3)]

### **B. DISPENSER ISLAND**

*No Dispenser present at time of Removal.*

Number of dispenser islands X  $\frac{\text{Length of each Dispenser Island (ft)}}{25(\text{ft})} = \text{\# of Samples}$   
(Rounded up to nearest whole number)

How many dispensers were present in the closed system(s)? 0

How long was each dispenser island (ft)? \_\_\_\_\_  
\_\_\_\_\_

How many dispenser samples were collected? 0

\* Although no piping trench samples are required if the piping length is <25 ft., dispenser samples are required.  
Exception: If the dispenser is directly above the tank excavation, no piping samples and no dispenser samples would be required.

\*\* This includes all fittings (couplings, elbows, flex hoses, etc.) between the tank and the dispenser island. Do not count fittings at the tank excavation and the islands. For straight piping runs, estimate 20 ft between couplings.

## **VI. EXCAVATED SOIL**

### **A. Sampling:**

How many cubic yards of material was excavated? 50  
Based on one sample per 200 cubic yards of excavated soil or fraction thereof,  
the total number of excavated soil samples: 1

## VII. CLOSURE SUMMARY

### A. CONCLUSIONS

☐ Soil or groundwater contamination exists in excess of the levels specified in the above situations and this closure report is being submitted within a certified CAP-Part A.

☒ Clean Closure, No Further Action Required because analytical results indicate the condition marked below: *BTEX and TPH analyzed only due to product stored, (TP-4).*

☐ BTEX, PAHs and TPH are below detection limits (BDL) in the soil.

☐ BTEX and PAHs are BDL in the soil and TPH (and BTEX) is vertically delineated to BDL above the groundwater table.

☐ BTEX and PAHs are above detection limits in soil but below Table A Threshold Levels, and TPH, PAHs, and BTEX in soil is vertically delineated to BDL above the groundwater table.

☐ BTEX and PAHs are above detection limits but below Table B Threshold Levels, a water supply survey indicates there are no potential receptors within the applicable radii, and BTEX, PAHs, and TPH in soil is vertically delineated to BDL above the groundwater table.

☐ BTEX and PAHs are less than Table A Threshold Levels and BTEX, PAHs or TPH is not vertically delineated to BDL above the groundwater table because groundwater is encountered in the boring or the excavation, and the water sample does not contain BTEX or PAHs above Federal or State MCLs.

☐ BTEX and PAHs are less than Table B Threshold Levels and BTEX, PAHs, or TPH is not vertically delineated to BDL above the groundwater table because groundwater is encountered in the boring or excavation, and the water sample does not contain BTEX or PAHs above In-stream Water Quality Standards, and the water supply survey indicates that there are no water supplies within the applicable radii.

**B. SITE MAP** (Attach to report): The map must be to scale OR, as a minimum, distances between the tank pit area, piping trenches, dispenser islands, sewer, water, utility lines (or other preferential pathways), road and main buildings must be accurately indicated on the map. These listed features must be depicted on the map in order to accurately interpret the data. The map must also include a north (N) directional arrow. Tank ID's must correspond to EPA Form 7530-1 and sample locations, sample identification numbers and depths must also be shown. Sample numbers must correspond to attached laboratory analytical data. Although not mandatory, photos may be attached to help clarify the UST system layout.

## SOIL/GROUNDWATER ANALYTICAL RESULTS SUMMARY

# COPIES	DESCRIPTION
1	Preliminary results for samples collected at Hunter AAF on 5/03/2006
	GCAL Lab SDG 2060050532

Comments: Results compared to GUST Tables A and B *Soil Threshold Levels and GA EPD Chapter 391-3-*

*19 Hazardous Site Response Section 07 Risk Reduction Standards part 6(c), Appendix I Table 1 and Appendix III Table 2.* There are no exceedances of screening criteria.

**GRO detects in both samples ranging from 3.08 ppm to 28.9 ppm.** Please see the attached data for your preliminary data use and review. Note, the data has not undergone the full CAPE comprehensive data quality assessment and is subject to change as a result of laboratory quality control exceptions applied during the validation process.

Enclosed Results are Approved for Quality Assurance Release by: Michael Houck 5/22/06.

# Laboratory Endorsement

Sample analysis was performed in accordance with approved methodologies provided by the Environmental Protection Agency or other recognized agencies. The samples and their corresponding extracts will be maintained for a period of 30 days unless otherwise arranged. Following this retention period the samples will be disposed in accordance with GCAL's Standard Operating Procedures.

## Common Abbreviations Utilized in this Report

<b>ND</b>	Indicates the result was Not Detected at the specified RDL
<b>DO</b>	Indicates the result was Diluted Out
<b>MI</b>	Indicates the result was subject to Matrix Interference
<b>TNTC</b>	Indicates the result was Too Numerous To Count
<b>SUBC</b>	Indicates the analysis was Sub-Contracted
<b>FLD</b>	Indicates the analysis was performed in the Field
<b>PQL</b>	Practical Quantitation Limit
<b>MDL</b>	Method Detection Limit
<b>RDL</b>	Reporting Detection Limit
<b>00:00</b>	Reported as a time equivalent to 12:00 AM

## Reporting Flags Utilized in this Report

<b>J</b>	Indicates an estimated value
<b>U</b>	Indicates the compound was analyzed for but not detected
<b>B</b>	(ORGANICS) Indicates the analyte was detected in the associated Method Blank
<b>B</b>	(INORGANICS) Indicates the result is between the RDL and MDL

Sample receipt at GCAL is documented through the attached chain of custody. In accordance with ISO Guide 25 and NELAC, this report shall be reproduced only in full and with the written permission of GCAL. The results contained within this report relate only to the samples reported. The documented results are presented within this report.

This report pertains only to the samples listed in the Report Sample Summary and should be retained as a permanent record thereof. The results contained within this report are intended for the use of the client. Any unauthorized use of the information contained in this report is prohibited.

I certify that this data package is in compliance with the terms and conditions of the contract and Statement of Work both technically and for completeness, for other than the conditions in the case narrative. Release of the data contained in this hardcopy data package and in the computer-readable data submitted has been authorized by the Quality Assurance Manager or his/her designee, as verified by the following signature.
