RE: Review of Response to Comments (RTCs) and Replacement Pages for the Twelfth (12th) Corrective Action Plan (CAP) Progress Report for the Former 724th Tanker Purging Station [Solid Waste Management Unit (SWMU) 26] dated January 6, 2010; Fort Stewart; EPA ID No. GA9 210 020 872.

Dear Mr. Baumgardt:

The Land Protection Branch of the Georgia Environmental Protection Division (EPD) has received Fort Stewart's RTCs and replacement pages, dated January 6, 2010, for the Twelfth (12th) Corrective Action Plan (CAP) Progress Report for the Former 724th Tanker Purging Station (SWMU 26). We have completed our review of the RTCs and replacement pages and have determined that our comments, sent to Fort Stewart in a letter dated January 2009, have been adequately addressed. The replacement pages have been incorporated into all copies of the above-referenced report on file at our office.

Should you have any questions concerning this correspondence, please contact Mr. Mo Ghazi or William Powell of my staff at 404-657-8674/8680.

Sincerely,

Amy Potter, Unit Coordinator
Hazardous Waste Management and Remediation Program

Algeana,
I think the The approval letter that you already have should be good for 12th Progress report and the addendum because from what I remember both report came about the same time, the addendum included the RTC in the text as well as responses as a separate letter. Beside what I have already sent to you and told chuck about, I have no other letter. Hope that helps. Just a few minutes ago I sent our review of Phase II MMRP historical record review.
Cheers,
Mo

Mo,

The attached letter is for the original SWMU 26 Addendum sent to the state in May of 2009, we're actually looking to the state's responses to the response to comments that were mailed out for this Addendum in January 2010. Do you possibly have a copy of this correspondence that was sent to the Installation?

Thanks!

Mo,
Could you possibly resend us electronic copies of the correspondences
for the 13th, 14th and CAP for FST-26?

Thanks!
