SUBJECT: AST 7009, Bulk Facility – HAA-09, Hunter Army Airfield, Savannah,
Georgia

Dear Ms. Rutland:

The Georgia Environmental Protection Division (EPD) has reviewed the June 20, 2011 work plan prepared by Science Applications International Corporation (SAIC) for the site referenced above. EPD approves of the proposed pilot-scale study. It is our understanding that the pilot-scale product recovery system will be installed in July 2011 and will operate for approximately six months. Please note that Mr. Bijan Rahbar, EPD's UIC coordinator, must be notified.

Feel free to contact me at 404 362 2556 if you have any comments or questions.

Sincerely,

James S. Guentert
Geologist III
