SUBJECT: **Corrective Action Plan (CAP) - Part A**
No Further Action Required:
UST 109 Building 1310
White Drive, HAAF
Savannah, GA, Chatham County
Facility ID: 9025105*1

109

Dear Mr. Fry:

This is to acknowledge receipt of your CAP-Part A received March 3, 1999, prepared by Science Applications International Corporation, for our review.

Based on current requirements of the Georgia Underground Storage Tank Act and the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data contained in your report, the Georgia Environmental Protection Division (EPD) has determined that, for the current release, no further action is required for contamination related to the subject location at this time.

However, this site could be subject to further corrective action in the future if mandated through more stringent State or Federal statutory or regulatory changes, if drinking water systems are identified or installed within two miles of the site, if surface water bodies are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination and/or free product on groundwater are identified as originating from this site.

If you have any questions, please contact the undersigned at (404) 362-2687.

Sincerely,

Lisa Lewis
Unit Coordinator
Corrective Action Unit II
