RE: Sublisting of Hunter Army Airfield - Special Forces Operation on HSI No. 10521  
Savannah, Georgia 31409

Dear Mr. Spears:

Pursuant to the Georgia Rules for Hazardous Site Response, specifically Rule 391-3-19-.05(1) "Listing on the Hazardous Site Inventory," the Georgia Environmental Protection Division (EPD) has evaluated the above referenced site to determine whether a release of a regulated substance exceeding a reportable quantity has occurred. Based upon information provided in your notification dated September 22, 1997 and supplemental notification dated January 3, 2000, it has been determined that a release exceeding a reportable quantity has occurred at this site. Since this site is located immediately adjacent to a previously listed site, HSI No. 10521, and the same contaminants have been detected on both sites, this site is now sublisted on the HSI as part of HSI No. 10521.

In accordance with O.C.G.A. §12-8-70(d) and Rule 391-3-19-.05(2) "Release Reporting," you are required to submit the following information unless such information has already been submitted pursuant to Rule 391-3-19-.04(4) "Notification Requirements":

- (1) Name, mailing address, and telephone number of the site's property owner, lessee, tenant, or facility owner or operator (for all such properties at the site);
- (2) Street address of the site or, if a numbered address is not available, a location descriptor;
- (3) An original of the most current topographic map of scale 1:24,000 produced by the United States Geological Survey, with the geographic center of the site identified;
- (4) A description of the property boundaries in the vicinity of the site by legal description, survey plat, tax map (EPD requires that you provide a tax map parcel ID number for the parcel at which the reportable quantity release was identified), or other means (the property boundary description must include other owners' properties if other properties have been affected by the release);
- (5) A chemical name, taken from Appendix I, of each regulated substance released at the site which independently meets the notification criteria in Rule 391-3-19-.04(3);
- (6) A general description of the nature of the release and the location of areas affected by the release or by its subsequent migration, both within and beyond the original site's boundaries;

Mr. John Spears  
February 25, 2000  
Page 2

- (7) Suspected or known source, quantity, and date of the release;
- (8) A summary of actions taken to investigate, clean up, or otherwise remediate the site; and
- (9) A statement which identifies the criteria of Rule 391-3-19-.04(3) by which the property owner determined that a release which required notification has occurred.

You have the option to use EPD's standardized Release Notification/Reporting Form (copy enclosed) in submitting the above information. Simply check "Reportable Quantity Release Reporting" in Item 1 of the form. If you have already submitted an initial release notification using the standardized form, and the information on the form accurately reflects the present situation at the site, please be aware that the only remaining information being requested by today's letter is described in Item 22 of the form. If you change any information previously submitted in a standardized form, please check "Supplemental Information" in Item 1 of the form.

Please submit the required information within forty-five (45) days of receipt of this letter to the following address:

Georgia Environmental Protection Division  
Hazardous Sites Response Program  
205 Butler Street, S.E., Suite 1462  
Atlanta, Georgia 30334  
ATTENTION: HSI

If you have any questions or comments, please contact Xiaobing Chen at 404/657-8600.

Sincerely,

Harold F. Reheis  
Director
