Dear Mr. Fry:

The Georgia Underground Storage Tank Management Program (USTMP) has received your consultant's letter, dated December 28, 2005, that forwarded a properly certified CAP-Part B Addendum Report#2. The report was prepared by Science Applications International Corp (SAIC).

We have conducted a technical review of the CAP-Part B Addendum. The basis for this review is the Georgia Rules for Underground Storage Tank Management (GUST Rules, revised 1996).

Please contact the Georgia Environmental Protection Hazardous Waste Branch concerning the chlorinated solvent contamination.

If you have any questions, please contact me at (404) 362-4529.

Sincerely,

William E. Logan
Senior Geologist
