SUBJECT: No Further Action Required
Underground Storage Tank Closure Report
Building 241, UST #243
Ft. Stewart, GA; Liberty County
Facility ID: 9089041*1

Dear Colonel Perez:

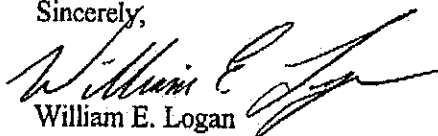

This is to acknowledge your letter, dated January 6, 1999, that forwarded an Amendment to the UST Closure Report, for our review. The report was prepared by Anderson Columbia Environmental.

We have conducted a technical review of the amended Closure Report. The basis for this review is the Closure Report content referenced in paragraph 391-3-15-.11(3) of the Georgia Rules for Underground Storage Tank Management (GUST Rules). The Georgia Environmental Protection Division (EPD) has determined that, for the current release, no further action is required for contamination related to the subject location, at this time.

However, the site could be subject to corrective action in the future if mandated through more stringent State or Federal statutory or regulatory changes, if drinking water systems are identified or installed within two miles of the site, if surface water bodies are impacted by any dissolved contamination, resulting from this release, or if previously unidentified soil contamination, dissolved contamination and/or free product on groundwater are identified as originating from this site.

If you have any questions, please contact the undersigned at (404)362-2687.

Sincerely,

William E. Logan

Geologist

Corrective Action Unit II
