SUBJECT: Underground Storage Tank (UST) CAP - Part A
 No Further Action Required:
 Building 1811 Area, UST 14 Site
 W. 15th Street West of McFarland Avenue
 Fort Stewart, GA; Liberty County
 Facility ID: 9089069

UST 14

Dear Mr. Spears :

This is to acknowledge your letter, dated March 20, 1997, that forwarded the subject Corrective Action Plan - Part A, prepared by Science Applications International Corporation, for our review.

Based on current requirements of the Georgia Underground Storage Tank Act and the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data contained in your report, dated March 19, 1997, the Georgia Environmental Protection Division (EPD) has determined that, for the current release, **no further action is required for contamination related to the subject location, at this time.**

However, this site could be subject to further corrective action in the future if mandated through more stringent State or Federal statutory or regulatory changes, if drinking water systems are identified or installed within two miles of the site, if surface water bodies are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination and/or free product on groundwater are identified as originating from this site.

If you have any questions, please contact me at (404)362-2687.

Sincerely,

Lisa L. Lewis
Unit Coordinator
Corrective Action Unit
