SUBJECT: Underground Storage Tank (UST) Release
No Further Action Required:
Fort Stewart/FAC 1720
FAC 1720
Fort Stewart, GA, Liberty County
Facility ID: 9089011

Dear Mr. Drummond:

This is to acknowledge receipt of your consultant's report, dated October 1996, that forwarded the subject Closure Report Form, for Tank no. 24, prepared by Anderson Columbia Environmental, Inc., for our review.

Based on current requirements of the Georgia Underground Storage Tank Act and the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data contained in your letter report, dated December 29, 1995, the Georgia Environmental Protection Division (EPD) has determined that, for the current release, no further action is required for contamination related to the subject location, at this time.

However, this site could be subject to further corrective action in the future if mandated through more stringent State or Federal statutory or regulatory changes, if drinking water systems are identified or installed within two miles of the site, if surface water bodies are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination and/or free product on groundwater are identified as originating from this site.

If you have any questions, please contact Michael F. Coughlan at (404)362-4529.

Sincerely,

Lisa L. Lewis
Unit Coordinator
Corrective Action Unit II
