Dear Mr. Spears:

This is to acknowledge your letter, dated March 20, 1997, that forwarded the subject Corrective Action Plan-Part A, prepared by Science Applications International Corporation, for our review.

Based on current requirements of the Georgia Underground Storage Tank Act and the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data contained in your reports, dated September 17, 1995, and September 17, 1996, the Georgia Environmental Protection Division (EPD) has determined that, for the current release, **no further action is required for contamination related to the subject location, at this time.**

However, this site could be subject to further corrective action in the future if mandated through more stringent State or Federal statutory or regulatory changes, if drinking water systems are identified or installed within two miles of the site, if surface water bodies are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination and/or free product on groundwater are identified as originating from this site.

If you have any questions, please contact Kenneth White at (404)362-2687.

Sincerely,

Lisa L. Lewis  
Unit Coordinator  
Corrective Action Unit
