SUBJECT: Underground Storage Tank Closure Report
No Further Action Required:
Ft. Stewart, GA FAC 260
FAC 260 (Tank 2018) --
Ft. Stewart, GA: Liberty County
Facility ID: 9089043*3

201B

Dear Mr. Spears:

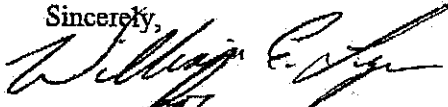

This is to acknowledge your submittal of the subject Closure Report addendum received December 22, 1998, for our review.

We have conducted a technical review of the Closure Report. The basis for this review is the Closure Report content referenced in paragraph 391-3-15-.11(3) of the Georgia Rules for Underground Storage Tank Management (GUST Rules). The Georgia Environmental Protection Division (EPD) has determined that, for the current release, **no further action is required for contamination related to the subject location at this time.** Please continue other corrective action activities at the facility.

However, the site could be subject to corrective action in the future if mandated through more stringent State or Federal statutory or regulatory changes, if drinking water systems are identified or installed within two miles of the site, if surface water bodies are impacted by any dissolved contamination, resulting from this release, or if previously unidentified soil contamination, dissolved contamination and/or free product on groundwater are identified as originating from this site.

If you have any questions, please contact the undersigned at (404) 362-2687.

Sincerely,

A. J. McAllister
Environmental Specialist III
Corrective Action Unit II
