SUBJECT: Underground Storage Tank Closure Report:
Ft. Stewart, GA VAC 4586
FAC 4586
Fort Stewart, GA; Liberty County
Facility ID: 9089044*1

Dear Mr. Spears:

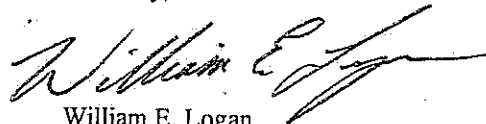

This is to acknowledge receipt of the your letter dated April 9, 1998, which forwarded additional information regarding the subject Underground Storage Tank Closure Report, for our review.

We have conducted a technical review of the Closure Report Addendum. The basis for this review is the Closure Report content referenced in paragraph 391-3-15- 11(3) of the Georgia Rules for Underground Storage Tank Management (GUST Rules). The Georgia Environmental Protection Division (EPD) has determined that, for the current release no further action is required at this time.

However, the site could be subject to corrective action in the future if mandated through more stringent State or Federal statutory or regulatory changes, if drinking water systems are identified or installed within two miles of the site, if surface water bodies are impacted by any dissolved contamination, resulting from this release, or if previously unidentified soil contamination, dissolved contamination and/or free product on groundwater are identified as originating from this site.

If you have any technical questions, please contact the undersigned at (404)362-2687.

Sincerely,

William E. Logan
Environmental Specialist
Corrective Action Unit II
