Facility ID: 9025085\*1**

Dear Mr. Thomas C. Fry:

The Georgia Underground Storage Tank Management Program (USTMP) has received your consultant's letter, dated November 5, 2009, that forwarded a properly certified Revised CAP-Part B Addendum #1. The report was prepared by ARCADIS.

The technical proposal contained in the Revised CAP-Part B for further investigation, monitoring and/or remediation of the current release is hereby approved by the USTMP. As a result of your CAP-Part B being technically approved, you are authorized to begin implementation of this plan.

**Note:** EPD recommends that an additional line of injection wells be located downgradient of D-MW-34 to reduce the "Leading Edge" of the dissolved plume. Also, additional monitoring wells will be necessary to monitor site conditions downgradient of D-MW-34.

Please submit an updated milestone schedule by **March 8, 2010**, listing specific dates, events and a timetable to complete the proposed activities. If you have any technical questions, please contact me at (404) 362-4529.

Sincerely,

A handwritten signature in black ink, appearing to read "William E. Logan".
