SUBJECT: **No Further Action Required:**
Hunter AAF, Former USTs #21 and #22
Building 1327
Savannah, Chatham County, GA
Facility ID: 9025053*1

Dear Colonel Stanley:

The Georgia Underground Storage Tank Management Program has received your letter, dated December 21, 2000, that forwarded a properly certified Monitoring Only Report. The report was prepared by Science Applications International Corporation (SAIC).

Based on the current requirements of the Georgia Underground Storage Tank Act, the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data submitted, the USTMP has determined that **no further action is required for contamination resulting from the referenced release.**

However, further corrective action may be required in the future if mandated through more stringent State or Federal statutory or regulatory changes. Additional measures may also be required if existing or future drinking water systems or surface water bodies within two miles of the site are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination or free product are identified as originating from this site.

Please submit a Completion Report and Certification, documenting that the associated monitoring wells have been properly abandoned, by **May 30, 2001**. If you have any questions, please contact William E. Logan at (404)362-2687.

Sincerely,

Lisa L. Lewis
Unit Coordinator
Corrective Action Unit II
