Bultman Avenue and East 4th Street
Fort Stewart, GA; Liberty County
Facility ID: 9089038*1

Dear Mr. Fry:

This is to acknowledge your letter, dated March 19, 1999, that forwarded a properly certified CAP-Part A for the subject facility, prepared by Science Applications International Corporation.

Based on current requirements of the Georgia Underground Storage Tank Act and the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the date contained in your report(s), the Georgia Environmental Protection Division (EPD) has determined that, for the current release, **no further action is required for contamination related to the subject location, at this time.** Please note that future reports should contain the original laboratory and chain-of-custody data.

However, this site could be subject to further corrective action in the future if mandated through more stringent State or Federal statutory or regulatory changes, if drinking water systems are identified or installed within two miles of the site, if surface water bodies are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination and/or free product on groundwater are identified as originating from the site.

If you have any questions, please contact Ronald J. Wallace at (404)362-2687.

Sincerely,

Lisa Lewis
Unit Coordinator
