SUBJECT: **Corrective Action Plan (CAP)-Part B Monitor Only Plan Report**

No Further Action Required:

Former **UST#100B**

Building 1350

Divarty Road and McFarland Drive

Fort Stewart, Liberty County, GA

Facility ID: 9089081*1

UST 100B

Dear Colonel Stanley:

The Georgia Underground Storage Tank Management Program (USTMP) has received your letter, dated May 4, 2001, that forwarded a properly certified CAP-Part B Monitor Only Plan Report. The report was prepared by Science Applications International Corporation (SAIC).

Based on current requirements of the Georgia Underground Storage Tank Act, the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data submitted, the USTMP has determined that **no further action is required for the referenced release.**

However, further corrective action may be required if mandated through more stringent State or Federal statutory or regulatory changes. Additional measures may also be required if existing or future drinking water systems or surface water bodies within two miles of the site are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination or free product are identified as originating from this site.

Please submit a Completion Report and Certification, documenting that the associated monitoring wells have been properly abandoned, by **September 20, 2001**. If you have any technical questions, please contact William E. Logan at (404) 362-2687.

Sincerely,

Lisa L. Lewis
Unit Coordinator
Corrective Action Unit II
