SUBJECT: Corrective Action Plan - Part A Addendum
~~No Further Action Required:~~
Building 1544 Area, USTs 43 and 44 Site
West 8th Street West of McFarland Avenue
Ft. Stewart, GA; Liberty County
Facility ID: 9089013*1

USTs 43-44

Dear Mr. Spears:

This is to acknowledge a letter from Lieutenant Colonel Carey W. Brown, dated September 9, 1997, that responded to my comment letter, dated July 23, 1997, on the CAP - Part A for the subject site.

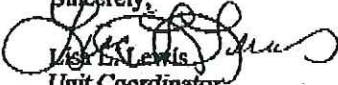

You have certified that the CAP-Part A Addendum for the subject facility has been implemented in accordance with the schedules, specifications, sampling programs, and conditions contained therein, and that the plan's stated objectives have been met.

Based on current requirements of the Georgia Underground Storage Tank Act and the Georgia Rules for Underground Storage Tank Management (GUST Rules), the data contained in your report(s) and per our discussions during the August 1997 meeting, the Georgia Environmental Protection Division (EPD) has determined that, for the current release, no further corrective action is required at this time for contamination related to the subject site only.

However, further corrective action for this release may be required in the future if mandated through more stringent State or Federal statutory or regulatory changes, if drinking water systems are identified or installed within two miles of the site, if surface water bodies are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination and/or free product on groundwater are identified as originating from this site.

If you have any technical questions, please contact Kenneth White at (404) 362-2687.

Sincerely,

Kenneth F. White
Unit Coordinator
Corrective Action Unit
