UST 13

SUBJECT: No Further Action Required:
Building 1810, UST #13 Site
15th Street and McFarland Avenue
Ft. Stewart, GA; Liberty County
Facility ID: 9089068*2

Dear Colonel Perez:

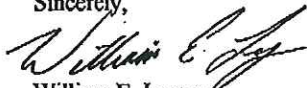

This is to acknowledge your letter, dated April 29, 1999, that forwarded a Closure Report for our review. The report was prepared by you.

Based on current requirements of the Georgia Underground Storage Tank Act, the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data submitted, the USTMP has determined that no further action is required for contamination resulting from the referenced release.

However, further corrective action may be required in the future if mandated through more stringent State or Federal statutory or regulatory changes. Additional measures may also be required if existing or future drinking water systems or surface water bodies within two miles of the site are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination or free product are identified as originating from this site.

If you have any technical questions, please contact me at (404)362-2687.

Sincerely,

William E. Logan
Geologist
Corrective Action Unit II
