SUBJECT: No Further Action Required:
Monitoring Only Report
Building 1213 Area, USTs 77 & 78
Wilson Avenue north of West 6th Street
Ft. Stewart, Liberty County, GA
Facility ID: 9089025*1

Dear Mr. Fry:

This is to acknowledge receipt of a properly certified Monitoring Only Report from Colonel Ovidio Perez, dated October 30, 2000, for the subject site. The report was prepared by Science Applications International Corporation.

Based on current requirements of the Georgia Underground Storage Tank Act, the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data submitted, the USTMP has determined that no further action is required for contamination resulting from the referenced release.

However, further corrective action may be required in the future if mandated through more stringent State or Federal statutory or regulatory changes. Additional measures may also be required if existing or future drinking water systems or surface water bodies within two miles of the site are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination or free product are identified as originating from this site.

Please submit a Completion Report and Certification, documenting that the associated monitoring wells have been properly abandoned, by April 25, 2001. If you have any technical questions, please contact William E. Logan at (404)362-2687.

Sincerely,

Ronald J. Walker Sr. LLC

Lisa L. Lewis
Unit Coordinator
Corrective Action Unit II
