SUBJECT: No Further Action Required:
Fort Stewart, Former USTs 226 & 227
Building 4526/4530 Area
Engineer Road, West of Essayons Drive
Ft. Stewart, Liberty County, GA
Facility ID: 9089042*1

Dear Colonel Perez:

The Georgia Underground Storage Tank Management Program (USTMP) has received your letter, dated October 28, 1999, that forwarded a properly certified Monitoring Only Report. The report was prepared by SAIC.

Based on current requirements of the Georgia Underground Storage Tank Act, the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data submitted, the USTMP has determined that **no further action is required for contamination resulting from the referenced release.**

However, further corrective action may be required in the future if mandated through more stringent State or Federal statutory or regulatory changes. Additional measures may also be required if existing or future drinking water systems or surface water bodies within two miles of the site are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination or free product are identified as originating from this site.

If you have any technical questions, please contact me at (404)362-2687.

Sincerely,

Lisa L. Lewis
Unit Coordinator
Corrective Action Unit II
